

Whistleblower Hotline

For employees & business partners

The Whistleblowing Hotline is a mechanism to provide all our Stakeholders with the confidence and means to raise concerns regarding any wrongdoing they observe, knowing that their concerns will be dealt with effectively, confidentiality and consistently.

To report a concern, please go to dpworld.ethicspoint.com

The service is run by a specialized external service provider that acts as an intermediary, and which relays only the content of received messages without forwarding any metadata that could be used to identify the individual providing the information. Therefore, if you do not wish to enclose your name, the report will be completely anonymous.

The hotline service can be accessed free of charge, 24 hours a day, 7 days a week. Otherwise, a concern can also be raised just by calling the Group Compliance Officer.
